Install the ROCK ELD device in your vehicle

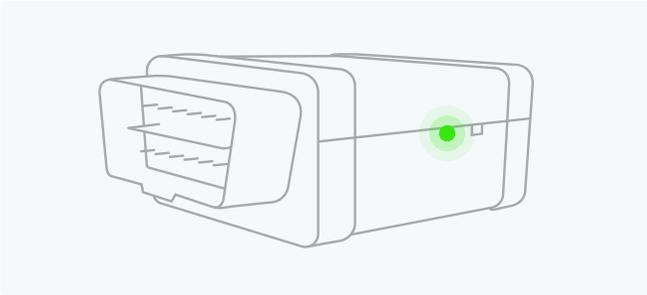

1. With engine off, locate the diagnostic port inside the vehicle. It is located in one of the four places:

2. Attach the device to the diagnostic port of the vehicle.

3. Once the device is installed, ensure the device is working properly as evidenced by a green LED light blinking. The green light starts blinking after a GPS & Cellular connection is initiated.

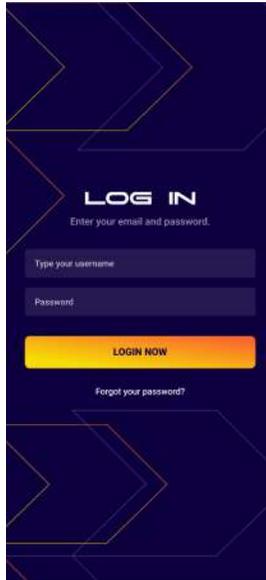

4. Securely mount your device in a location with no electrical components nearby. This will help prevent issues like ELD device interference and GPS signal disruption. It is recommended to position the ELD device visibly, ensuring an unobstructed view of the sky, as shown in the image below.

IMPORTANT: Please follow the above-mentioned instructions. Otherwise, you risk ELD device interference and GPS disruption, creating problems with the signal. Do not put an ELD device under the dashboard under any circumstances.

Install the ROCK ELD App

1. For android phones and tablets download the ROCK ELD App from Google Play Store. For iPhones and iPads download the ROCK ELD App from the App Store.
2. Open the ROCK ELD App.

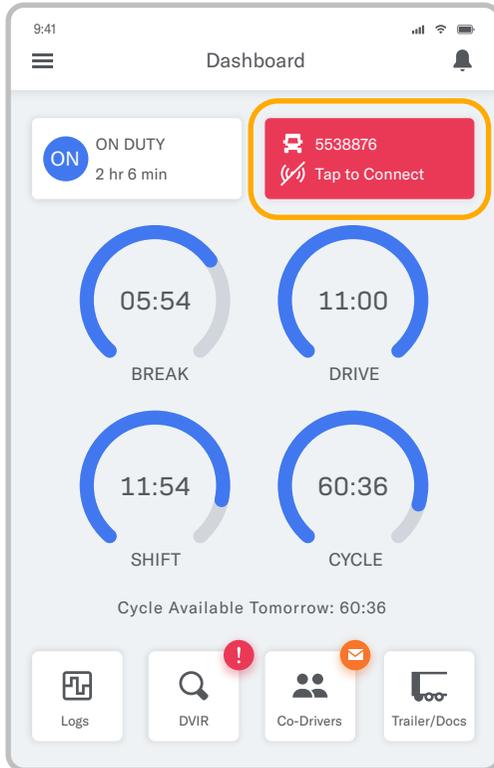

Login to the ROCK ELD App and select a vehicle

Read the login details from your email. If you don't have login details yet, or you've forgotten them, contact your Carrier administrator.

1. Enter your login details and tap LOG IN, you will be prompted with Terms and Conditions.
2. Read the Terms and Conditions and tap AGREE.
3. Select your vehicle from the list, or search for one.
4. Tap ACCEPT, you will be prompted with a Settings page where you can review and edit settings details.
5. Tap SAVE.

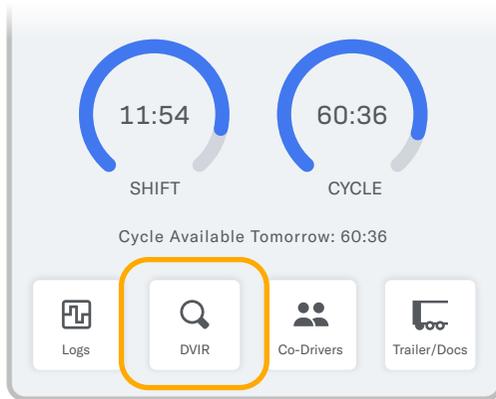

! Dashboard View

After successfully login & vehicle selection, the Dashboard page is open. Use Tap to Connect bar to connect to your vehicle.

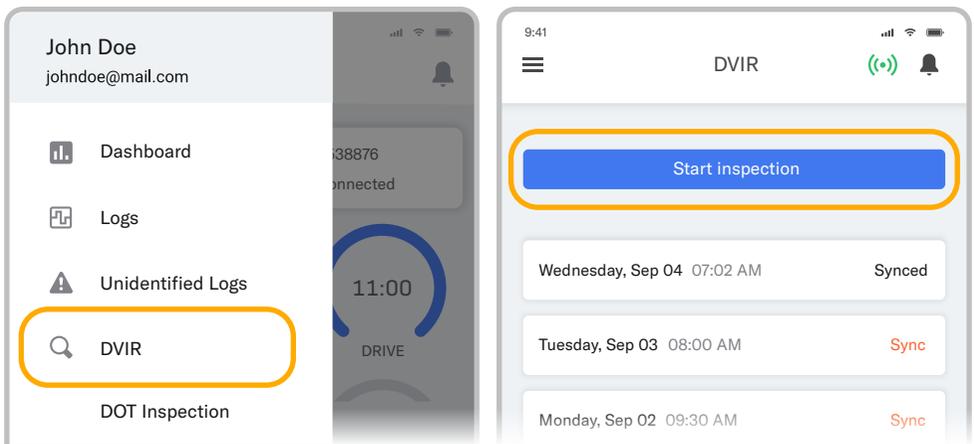

Complete Pre-Trip DVIR

Start a new pre-trip inspection report by tapping the DVIR button.

You can also Start Inspection from the left side menu by tapping the DVIR option.

1. From DVIR view, enter the odometer value and tap Start Inspection, if you are in Off Duty or Sleeper Berth status you will be placed to On Duty status. Pre-trip is selected by default.

2. Tap Add/Remove under Vehicle Defects and review each item from the list against your vehicle.

The screenshot shows a mobile application interface for a Driver Vehicle Inspection Report (DVIR). At the top, there are two tabs: 'Pre-Tip' (active) and 'Post-Tip'. Below the tabs, there are three input fields: 'VIN' with the value 'WS3KN3U33A334456', 'Odometer', and 'Location' with the value 'San Francisco'. Underneath these fields is a section titled 'Vehicle Defects' which currently displays 'No Defects Found'. A blue button labeled 'Add/Remove' is positioned to the right of the 'Vehicle Defects' section and is highlighted with a yellow rounded rectangle.

3. If you identify a defect, select the appropriate defect in the list and enter a comment and photo. Tap Save.

The screenshot shows the 'Front' section of the DVIR form. It features a list of five items, each with an unchecked checkbox and a dropdown arrow: 'Headlights', 'Flashers', 'Fog Lights', 'Marker Lights', and 'Engine Compartment'. At the bottom of the screen, a blue button labeled 'Save' is highlighted with a yellow rounded rectangle. The top of the screen shows the time '9:41', signal strength, Wi-Fi, and battery icons, along with a menu icon, the title 'DVIR', and a notification icon.

4. If Trailer is applicable, repeat step 2 and 3 under Trailer Defects.
5. Tap Sign and Save the Report.

Populate Log Form Data

Select Trailer/Docs button from your Dashboard to add the Trailer/Shipping Docs number.

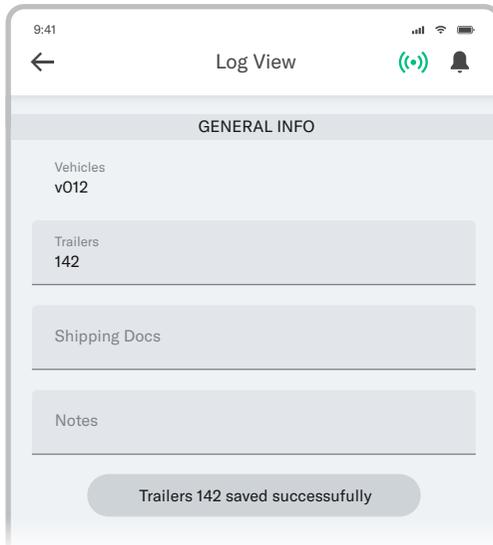

Trailers & Shipping Docs are also available through the Logs folder.

1. From your Dashboard view, tap the ☰ icon.
2. Select Logs.
3. Tap the daily log at the top of the list.

4. Scroll down (to the bottom of the screen) and tap the Trailer or Shipping Docs field.
5. Enter your trailer or shipping doc numbers. You will see "Trailer saved" OR "Shipping Docs saved" confirmation message.

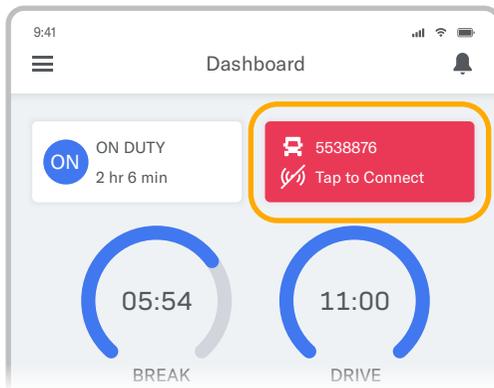

Connect your mobile device to the ROCK ELD device

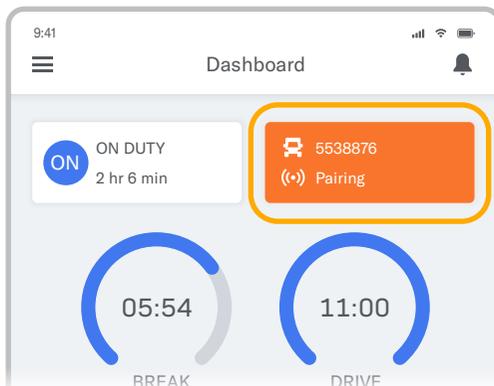

! Enable Bluetooth

Please ensure that Bluetooth is enabled on your device before you connect to the ROCK ELD device.

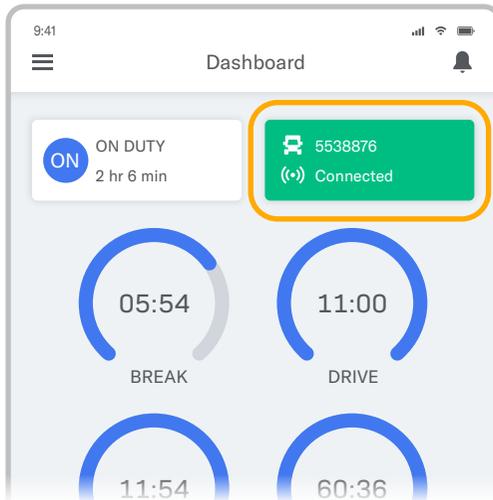

In the main Dashboard view there is Tap to Connect bar - just below the vehicle number

1. Use Tap to Connect bar to connect to your vehicle. The device will attempt to connect to selected vehicle ELD via Bluetooth. ELD bar will change from red to orange: Pairing.

2. An icon (📶) will appear in connection bar upon successful connection.

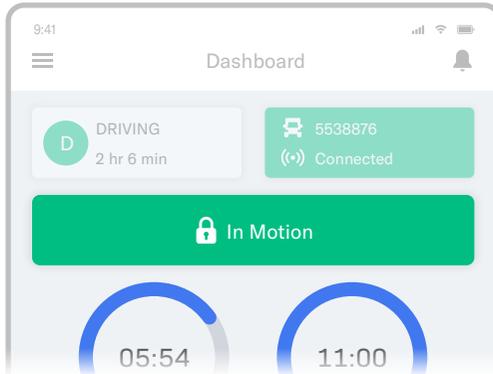

✓ Ready to Drive

Once you've completed all of the pre-trip tasks in this section, you're ready to drive.

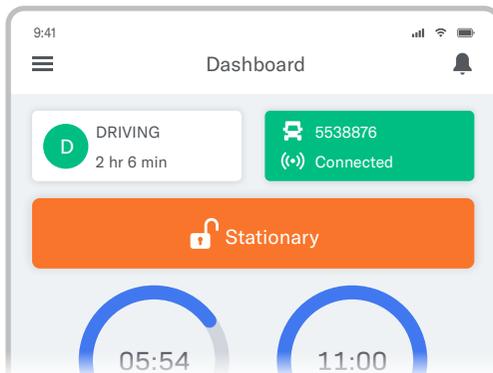

When your vehicle is moving at 5 MPH or greater, your duty status will automatically switch to Driving, in accordance with the ELD mandate.

Record Hours of Service

1. When your vehicle reaches 5 MPH or greater, ROCK ELD is indicating that vehicle is In Motion and your duty status will automatically change to Driving.

2. When the vehicle stops (0 MPH) it's considered Stationary.

3. You can change your duty status by tapping the Driving and selecting some other duty status.
4. If your vehicle remains Stationary for five minutes you will be prompted with a question if you would like to change your duty status. If you ignore this question your duty status will be changed to On Duty.
